The Richest Land

**Sukarma Rani Thareja
Alumnus IIT-K-1986
Kanpur,UP,INDIA.**

Being human with scientific aptitude,
I am science research lab wonderful.
Every semester a new/visiting researcher,
JRF, SRF, Post docs come with hope and aspirations.

Though all are new arrivals,
Some have ideas, some ask questions how and why,
Some have hypothesis to their problems,
Some are busy in experimentation,
Some are analysing data what comes up next,
Some are making graphs of data to show it is best,
Some are happy/depressed they got results fine/not fine,
Every researcher is trustworthy visitor,
I welcome and entertain honourable Researchers.

Being researcher in any science lab is a trip,
Of meaningful journey and is like dip,
In holy mother Ganges lap beautiful,
Each scientific/non-scientific activities,
Researchers perform has outcome positive,
Which gives researcher and me(Lab) awareness and pleasure,

Which clear/teach out us with new delight.

A parting question I(Lab) always ask myself and my researchers,

I played host "to what kinds of researchers "

What scientific wisdom did they share? and I stay curious,

And feel proud to be researchers land richest.
