Article History: Submitted-18/08/2017, Revised-09/11/2017, Accepted-10/11/2017, Published-20/11/2017.

Abstract:

The paper attempts to study psyche aspect of the Third sex instinct by analysing the factors that may bring the instinct of third sex in the human beings, in this paper the example of Rudramadevi the monarch of kakatiya dynasty has been shown to bring out the stereotype fragility of woman in the male dominated society. Thus, the factors or psyche that leads the person to transgender himself or herself are discussed in the paper. The present study will throw light on the psychology of the people for the third sex and the suffering they have to face worldwide, by accepting themselves as they are. It will help us to analyse the factors through different example. Thus, this study will help the readers in bringing not just the empathy for the third sex but to throw light on their suffering, so that the inequality on the basis of their sex wouldn't create any problem to achieve their self identity through proving themselves in work place or in social or political sector.

Keywords: Psyche, Analysis, Third-Sex, Instinct, Rudramadevi, opposite sex, love , The Holy Bible.

Introduction:

The Transgender or the third sex are the burning topic for today's scenario, when not only in western culture but, In the country, like India, where the same sex marriage has been accepted by the supreme court in recent years, Have also taken protest for the people who born or adapt that particular instinct in him or her that his or her interest comes to same sex rather than the opposite sex or the gender. They are being discriminated and tortured around the world in different places or countries. Most of the third sex people in different countries are dying or being killed, as they are born in this way or being adapted in certain culture that they had to adopt the third sex. But, if the person who is doing no harm to others, has the similar potential like others, why they had to face death ? Where, then.. the humanity goes? Where is the mercy left? Do the Holy Books not Teach us to love others? Does the religion not teaches us, that we should not harm anyone? Then why, the people still face harm in many different countries?

By supporting the safety and equality of the people having third sex, still I don't support the view fully, as the third sex can be inborn, transgendered or simply an instinct adapted in particular environment and became a habit. And habit can be changed. If the person has the habit of smoking or drinking , he she is considered as the habitual , when we talk about the suicidal or death instinct in anyone, that too is considered as the instinctual , they have certain urges which can be controlled by the proper counseling, teaching or preaching. But we shouldn't kill the people. That is most crucial thing, people ever think off.

If its not supported in the religious book of any religion, then let the God take their case , How can people be so Judgemental? No God has given authority to take life of other person. Bible says , 'God is love',

"He who does not **love** does not know **God**, for **God is love**."(NKJV- 1 John 4:8)

So, One shouldn't cross the boundaries of cruelty that in some countries, if the person is considered as third sex or have that instinct they either beheaded or have to gone through so much of mental Tension. As I have given the example of The Holy Bible, the mostly read book in the world , then I should reveal this too, that Bible does not support the same sex marriage too.

²⁷ So God created man in His *own* image; in the image of God

He created him; male and female He created them."(NKJV Genesis 1: 27)

So, from the above above example we can see that In The Holy Bible, the God too created a person as male and female. Not as the third sex, but we shouldnot avoid the verse from, 1 John 4:8 that "he who doesn't love doesn't know God, and God is love".

I just want to support the fact that the trans- gendered persons are being tormented and killed in many places in the world. Which should be stopped. The discrimination being done with these people in Job and society should also be stopped, instead they should be treated well in the society and moreover, rather than killing or be harming them, they should be given a proper counseling.

The concept is getting clearer to this gen about the sexual definition of the human beings. Although , the suffering or discrimination , these people has to face , is not new to anyone, it is from ancient period, if the boy or girl had this instinct , he or she had to get boycott from the society and they had to get the lower rank services, because nobody would prefer the third sex as a ruler or as a authority.

In the latest Telugu movie 'Rudramadevi', directed and produced by 'Guna sekhar' on 2015, was made on the real life of Monarch of kakatiya Dynasty of Deccan plateau, 'Rudrama Devi' or 'Rudra dev'. In this movie version of Famous Lady ruler of Kakatiya Dynasty, We can observe the effect of the people, when they came to know that she was a woman hidden in the man's attire. No body wanted a ruler as a 'Woman'. The effect is seen clearly, when most of the ruler

from neighbouring countries tried to capture their state from different territories. In fact, their own people didn't accept her as a queen, where they had already seen her great power no less than any of the best warrior, she was in fact portrayed as a Lion in one of the scene when she controlled the uncontrollable Elephant.

Actually Its not about the heterosexual, Bisexual or The third sex, but its all about the woman, the man dominated, patriarchal society does not want to consider 'woman' as their authorities. If woman are woman, still she had to face the situations like the protagonist in Rudramadevi and If the man is a gay, he has to face the same, because, he is been treated like woman, the stereotype of fragility.

If we talk about the lesbians then they are treated again fragile, as they don't have proper man as a crown or husband. Who again denoted as the weak person. In India the third sex marriage has become legal where in most of the countries it had already received legal permission.

Other than the stereotype of Woman hood and her fragility, If we Notice the natural way of Gods creating human beings, then we can see that The God most high had made the man and out of his ribs he made woman

According to the Holy Bible ,

¹⁸ And the LORD God said, "*It is* not good that man should be alone;
I will make him a helper comparable to him." (NKJV Genesis 2:18)

And in other lines ,

“²⁰ So Adam gave names to all cattle, to the birds of the air,
and to every beast of the field. But for Adam there was not
found a helper comparable to him.²¹ And the LORD God caused
a deep sleep to fall on Adam, and he slept; and He took one
of his ribs, and closed up the flesh in its place.²² Then the
rib which the LORD God had taken from man He made into
a woman, and He brought her to the man.

²³ And Adam said:

“This *is* now bone of my bones
And flesh of my flesh;
She shall be called Woman,
Because she was taken out of Man.”

²⁴Therefore a man shall leave his father and mother and be
joined to his wife, and they shall become one flesh.”

(NKJV Genesis 2:20-24)

But now a days, People are attracted to the same sex. In India, the people are still not that much modern that they accept the gay marriage easily, Still now if they get to know, that their son or daughter has the third sex inclination they scold and the person who has that instinct has to hide it from the family and from the friends, This is still shown in the form of different movies or the soap operas, we all know that the Bollywood is considered as the biggest industry in India and the people has so much influence in their life that even kids try to imitate the latest fashions or the hero . So how much would be the effect of the serials or the movies on the mind set of the people if they are watching it. Actually, most of the time the movies or serials don't influence the people that much as they tells us the real mindset of the people, Now a days the cinema is smart and intelligent, they do a lot of survey then present a right approach of the people towards anything. So by analysing the mostly portrayed things, we can see the general mindset of the people. Not only through cinema but also from our society and through the social interaction we come to know about the general thinking of the people who have not yet accepted the third sex in their society. Whether it get the legal permission, but still the things cannot be seen as changed till the mindset of the people get changed.

During the Job Exam or the Admission or any entry, the sexual identity is required, that time, the Heterosexual Man or Woman can Write, Either, Male or Female. But the Bisexual or other Identification of sexes are still not given a primary importance yet in our country, as compared to the UK or other developed countries. Where to reveal the sexuality is must for acquiring a Job. This is very important for providing the job type to the individual now a days.

As Man are stereotyped for strength and Woman Stereotyped for compassion and Emotional Understanding, so the person of particular sex has the quality of that particular sex also and If there is an inclination of third sex, who is neither man or woman can be due to their genital problem and still have those inclination towards the other sex, can be given a training or teaching for this kind of inclination, as one should not change the idea of the supreme power.

Who we are to challenge the Gods Creation? Other than Giving Equal Value to the Third Sex people, I don't support anything. Whether , it's a bonding or the Marriage of same sex, It is highly unaccepted in the society , in the country like India. However, the Government permission has been give for the same sex marriage , still the Values or the teaching inculcate in the Indian Man or woman,..does not allow the Man or Woman to reveal their sexual inclination in the public, I think , In the workplace or at home the third sexual people should be given a proper respect and work according to their capabilities. But alas! They are been down casted and ill treated. The society has discrimination for the people like them, but they should be treated

well, when they had been developed in this way. Had they got the proper teaching and inclination or opportunity to grow up in this way, they wouldn't have changed into this.

Still it brings shame to the family and many other consequences, the family has to face, Thereon.

The Third sex is not a new term to any country or region, but it was prevalent since ancient history. This is described in the most of the Religious books also, like in Geeta, the third sex was described so in The Holy Bible we can see the words like eunuchs in the Old Testament, This doesn't show that the same sex marriage is also allowed in the Bible, But that is Quite wrong myth, as Bible never supported the same sex marriage, Infact, as mentioned before in this article, God really don't like this kind of an unnatural way of sex. He always, said, infact that it is sinful.

2- FACTORS AND SUGGESTIONS:

There are many factors that lead the person to adopt the behaviour of the opposite sex, which are come up with the suggestions:

2.1. - Freedom to mix with opposite sex:

In my opinion, the same sex inclination is just a psyche habit, which can be developed, when the person is not given a proper freedom to mix with other sex.

In some countries including India, the girls are not send to the co-ed schools in the initial time of growth. Same happens with the guys, due to this they are always more curious to know about opposite sex and ended up in having a same sexual experiences.

2.2. - Area or the Population Ratio:

The person also get into the third sex, when there are the limit of the people in that particular area, for example, If The man are more and woman are less, there are the probability of inclination of man towards man..or vice – versa.

2.3. - Lack of Teaching or Knowledge:

The person who don't get ideal teaching in the initial period of the inclination towards same sex can really get mislead. So, The parents should keep an eye to their son or daughter in their young age, and try to befriend them with the opposite sex also, by not taking this in a narrow thinking, that their kids will get spoiled. But there should be the balance in their permission and then too they should take care of their kids or children, where they are going.

2.4. - Mentality of the Family and Friends:

The mental level of the parents plays a most vital role to breed their children in the specific environment, where they may have the balanced form of Friends and Environment.

2.5. - Children Toys and Games :

One of the most Important thing that plays a vital role in the child's Psychology are the games or the toys they play with. There was a Article in the local News paper that the Barbies and the Pink color are shown and given in gift item are stereotype for the Girl child and this shows the gender discrimination. But In my view, the Barbies makes the girls more feminine than the other things, It influence the girl child and she has an effect of becoming beautiful like her. But the same Barbie , if given to the boy child who is the second born kid in the family can create a great problem in the sexuality of the boy. In this case, the Parents should bring Different toys for the boy Child also, as this can help him to get the masculine characteristics in him.

2.6. - Parent's expectations and Acceptance:

The parents should accept the fact and be happy and satisfied for , having a Girl . They should tell their daughters that having a Feminine Characteristics are not bad and Being born as a boy and having Masculine Characteristics in the nature is not bad , as well. As, I had give the example of the Rudrama devi, where her sex identity was hidden for long time and she was raised up as a prince and not like a princess. If the parents would not dare to accept their own child's sex , how would the child would accept. This can be seen in the real life also, one of my friend's friend is raised in this manner that she avoid being dressed modestly like a girl, she dress like man and a hairstyle like man, and sits with her father in the family shop of groceries. Had her parents accepted her as girl – child and wouldn't treated like a boy with her, she wouldn't have that impact in her life to become a boy.

Conclusion :

Thus from the above factors we can conclude that there are many situations which can develop the instinct of third sex in an individual through the environment and the reasons discussed under the factors.

Accepting their instinct is an individual choice but making an un biased society for them and saving them in a general view as we pray for the safety of other individuals too is quite an another view to be noticed by different nations and the peace keeping organizations. For , the people have a right to live and to live in safety.
