To Count Number of Tongues in Oneself or Others Which is Worthwhile?

G.H. Abeyweera
Dean/ Faculty of Management
Uva Wellassa University of Sri Lanka
Passara Road, Badulla
Sri Lanka

I know well I have a single tongue
He knows well he has a single tongue
Yet, he says that I have a double-tongue
A doubled tongue knows better I have a single tongue
Yet, he says that I have a double tongue
He and I know well
Every individual has a single tongue
And speaks often in one tongue in the world

When things fall in his line
Then, he is a single tongue
But, when things not fall in his line
Then, he is a doubled tongue

In his simple theory;
He who articulates when,
Things are in his line
He has a calculating tongue
When things not in his line
He has a fork-tongue

A tongue of any type is to speak
Yet, to speak with a single tongue,
Or with a double tongue
Or of a fork-tongue
Or to count the number of tongue
In oneself or others
Which is worthwhile?
(Dedicated to the insinuating tongue)
